ABOUT AmaSSSing

WOMEN'S EMPOWERMENT WORKSHOPS, PROGRAMS, SUPPORT NETWORK AND RETREATS

AmaSSSing was born from the recognition that women need – and deserve – a platform dedicated to the trials and the triumphs that are a part of their everyday life; at home, in the workplace and in the community.

Sandra and her business advocates for a better tomorrow through the women who aspire to be influencers at a time when their capacity to contribute is only surpassed by their desire to do so.

Why?

- Women are natural born leaders & natural communicators.
- Many women recognize these innate strengths; not all know how to develop them, share them, monetize them, or use them to make a true difference in today's world.
- The compliment of our membership benefits illustrates that we are all stronger together, than any of us could ever be alone.
- In AmaSSSing we put aside competition and make cooperation our priority.
- We enable Leaders to find their voice, their platform and their audience.

Sandra's corporate programs have proven to be very effective in driving business ownership. Whilst the programs have a well-developed and thought provoking conceptual framework, the real power comes from the very deliberate engagement of line management as a first step and the direct alignment of the program to the specific business strategies of the organization.

The uniqueness of these programs is achieved by customization dependent upon the needs of the particular business but remains based upon the conceptual frame work which delivers a results oriented outcome.

This approach combined with Sandra's skills and enthusiasm has resulted in material changes to the way in which business functions, the energy shown by a number of line managers following the program is testament to the quality of both the program content and Sandra in her role as program leader.

Sandra motivates, energizes and engages audiences. She speaks at both large and small gatherings and will tailor any of these topics for your specific audience. Her topics can be combined for a weekend conference or retreat.

"Leadership is ... empowering others to use their gifts"

- ✓ I empower women to know their value and claim their worth!
- ✓ I encourage women to recognize and embrace their own greatness.
- ✓ I help them to break through emotional blocks that have been preventing them from being their best self, and creating the life they truly desire.
- ✓ I save women years of painstaking trial and error, by assisting them to avoid common mistakes that are all too often made, in life and in business.
- ✓ I give them simple and practical tools to be able to influence, negotiate and go after what they want.
- ✓ I support women in giving themselves permission to take time off to recharge their energy and to experience life as a journey, rather than a race.
